

"THE STILLNESS OF THE NIGHT"

The night has a stillness
One that fills the heart with solitude
How far away the stars
Cricket songs fill the darkness
No human contact
Alone I am not
God is ever present
Talking to my heart
Time to reflect on his silent words
Time to take new pathways
And find new days
Hearing the worlds songs
Seeing and hearing Gods creatures
How wonderful to really see and hear
Thankful to share it with others
My life
A life that many do not heed
So many busy people
Shutting their hearts off
Loneliness of the heart
Keeps us from living
Keeps us living by our past
If we want changes in our lives
We must not fear the stillness of the night
